

UNIQUE NUTRIENT FORMULATION INCREASES ELECTRON DONOR KINETICS AND EFFICIENCY

BENEFITS OF ACCELERITE® Accelerite® (patent-pending¹) is a formulation of growth factors, B-vitamins and micronutrients. Studies have shown that adding Accelerite® to your electron donor can:

- ▶ Increase the kinetics and efficiency of your electron donor
- ▶ Stimulate anaerobic bacteria
- ▶ Promote the production of propionate over acetate

**INCREASE ELECTRON DONOR
EFFICIENCY WITH ACCELERITE®**

**INCREASE DECHLORINATION
KINETICS WITH ACCELERITE®**

**INCREASE PROPIONATE:ACETATE
RATIO WITH ACCELERITE®**

**INCREASE ANAEROBIC BACTERIAL
POPULATIONS WITH ACCELERITE®**

Studies show that Accelerite® promotes the production of propionate over acetate. Microcosm data shown at 11 days.
